Computer Certifications and Standardized Testing

Whether you're a high school graduate certified in A+, successfully completed an Advanced Placement (AP) Computer Science exam, or a certified working professional, CCAC provides you an opportunity to leverage your recognized accomplishments towards a CIT Associate Degree or Certificate.

Various certification programs are recognized by CCAC as having the equivalent knowledge of the indicated CIT course, and **can be used to meet the prerequisites of other courses or advanced standing** towards the requirements of a degree or certificate. If a student has a certification not on this list, you should consult with the CIT Department Head on your campus to see if a Waiver is appropriate.

Proof of certification is required by the Director of Registration and Advisement at the campus where you are enrolled.

Certification or Exam	CCAC Equivalent
AP Computer Science Exam A (Java-based; must have a score of 3 or higher)	CIT-111 Intro to Programming: Java
AP Computer Science Exam AB (Java-based; must have a score of 3 or higher)	CIT-130 Object-Oriented Programming 1: Java
CompTIA Network+ Certification (current as well as past exam taken during the last 5 years)	CIT-120 Networking
CompTIA A+ Certification (current as well as past <u>paired</u> two exams taken during the last 5 years)	CIT-150 PC Components and Operating Systems
CompTIA Security+ Certification (current as well as past exam taken during the last 5 years)	CIT-181 Principles of Information Security
CompTIA Project+ (current as well as past exam taken during the last 5 years)	CIT-215 Systems Analysis and Design
CompTIA Linux+ powered by LPI Certification (current as well as past <u>paired</u> two exams taken during the last 5 years)	CIT-220 Linux Operating System
International Computer Driver License (ICDL) -- All seven modules	CIT-100 Computer Fundamentals and Applications
Internet and Computer Core Certification (IC3) -- All three exams	CIT-100 Computer Fundamentals and Applications
Microsoft Office Specialist (MOS): Microsoft Office Excel **Expert** <u>and</u> Microsoft Office Access (both exams, current as well as past exams taken during the last 5 years)	CIT-140 Office Productivity Applications
Microsoft Office Specialist (MOS): Microsoft Office Word **Expert** (current as well as past exam taken during the last 5 years)	CIT-141 Word Processing
